

Dear Parents and Guardians,

This correspondence is to notify you that the District will be implementing a remote learning session for the next 10 days at the Clara Barton Elementary. The Clara Barton Elementary is experiencing an increase in positive cases among staff members. The mandatory remote learning session will start on Thursday, November 12, and conclude on Tuesday, December 1. Students will report back to school in the hybrid model on Tuesday, December 1 after the Thanksgiving Holiday.

At this time the District's primary concern is for the safety of our students and employees. As stated previously it is believed minimal students were in contact with the staff members and parents have been or will be notified through the contact tracing process. Currently, the elementary school has 3 confirmed positive cases of staff members as of yesterday. The District has multiple staff members quarantining, and getting tested.

All other schools will continue in the hybrid model until further notice. The District thanks everyone for their understanding and assistance in transitioning back to the remote model for the elementary students.

Please be reminded that High school students will resume the hybrid learning tomorrow. Buses will be running as normal.
