

Dear Parents and Guardians,

This correspondence is to notify you that the District will be implementing a remote learning session for the next 10 days at the Middle School grades 4 through 8. The Middle School is experiencing an increase in exposures to positive cases among students and staff members. The mandatory remote learning session will start on Friday, November 13, and conclude on Tuesday, December 1. Students will report back to school in the hybrid model on Tuesday, December 1 after the Thanksgiving Holiday.

At this time the District's primary concern is for the safety of our students and employees. As stated previously it is believed students and staff members were in contact with the individuals that were exposed to a positive case. Parents have been or will be notified through the contact tracing process if their child was exposed. Currently, the middle school has multiple exposures from possible positive cases. The District has directed multiple students and staff members to quarantine and get tested.

All other schools will continue in the hybrid model until further notice. The District thanks everyone for their understanding and assistance in transitioning back to the remote model for the middle school students.

If you need to retrieve any items from your child's school either Clara Barton or the Middle School please contact the office to set up an appointment.
