Making Hygiene Accessible

Keeping Our Students Safe - Hand Sanitizer Placed Throughout Our School

We want you to know we are taking the health and safety of our students seriously. That's why we have hand sanitizer readily available throughout our school. Hand hygiene awareness signs have also been posted to remind everyone the importance of clean hands!

Encourage and Reinforce Hygiene Etiquette

Hand Hygiene – Before and After Entering Our School

We strongly encourage each of our students to wash or sanitize their hands as they enter and before they leave school each day. We have placed hand sanitizer stands throughout our building as a friendly reminder to keep hands clean.

Reminder to Wash Your Hands for At Least 20 Seconds!

Hillyard, Inc., our partners supplying hygiene, cleaning and disinfection solutions, has supplied us with friendly 20-second hand washing mirror clings. These reminders will help all our students and staff to remember to wash their hands for at least 20 seconds with soap and water!

Execute Enhanced Cleaning and Disinfection Plan

Cleaning and Disinfecting Throughout Our Facility

Our main priority is the health and safety of our students, faculty and staff. We want to reassure you that we are taking every precaution we can to ensure a clean, safe, healthy facility. Hillyard, Inc., our partners supplying hygiene, cleaning and disinfection solutions, have over 14 EPA-approved, List N cleaners and disinfectants, to create a cleaning program specifically for our facility. This will ensure each area is cleaned and disinfected properly daily to help stop the spread of illness, including COVID-19.

We'll Be Focusing on High-Touch Hot-Spots

It's important to us to keep our school clean, safe and healthy. Our staff will be cleaning and disinfecting daily and will focus on high-touch hot-spots, including doorknobs, drinking fountains, desks, computers, tables and chairs.

Images & Links:

VITAL OXIDE, our premiere product, is an EPA-registered hospital disinfectant cleaner, mold and mildew killer, and odor eliminator. With its ready-to-use formula designed to be gentle to users but tough on germs, Vital Oxide is non-irritating to skin, non-corrosive to most treated articles, NSF-certified (no rinse required) for food-contact surfaces, and listed as a category IV (lowest toxicity category) pesticide with the EPA. With every bottle of Vital Oxide comes the promise that we are actively working toward environmentally sound cleaning and disinfecting solutions.

Staff Training to Keep You Safe and Healthy!

We have partnered with Hillyard, Inc. to properly train our staff on new procedures for cleaning and disinfecting. This training has enhanced our procedures to ensure we are doing everything we can to stop the spread of COVID-19.
